

TRIPLE POINT PULSE

ANNUAL REPORT 2013-2014

INDUE FINANCIAL STATEMENTS

● We unlock and reveal what's possible

This financial report covers both Indue Ltd as an individual entity and the consolidated entity consisting of Indue Ltd and its controlled entities. A description of the nature of the consolidated entity's operations and its principal activities is included in the Directors' Report.

The financial statements were authorised for issue by the Directors on 29 August 2014. The Directors have the power to amend and reissue the financial statements.

Indue Ltd is a public unlisted company limited by shares, incorporated and domiciled in Australia.

Its registered office and principal place of business is:

Level 3, 601 Coronation Drive
Toowong QLD 4066
phone +61 7 3258 4222
fax +61 7 3258 4211

Chairman's report

Performance and strategy

Your Board is pleased to report that 2013/14 was another year of strong achievement and steady progress for Indue against the background of a challenging business environment and continued disruption in the payments market.

Our net profit before tax, on a consolidated basis, was \$4.5 million, an increase of 15% on the year before. Underlying operating profits grew by 15% from the year before. This result enables us to declare another sound return for our owners, with total ordinary dividends for the year of \$12 or 12% per share.

We have maintained consistent financial performance and returns for our members. The key reasons why Indue has been able to maintain such consistency has been our continued focus on our heritage mutual business and our diligent implementation of our diversification strategy.

Our diversification strategy continues to be a rich source of growth which makes our business more resilient. Over the last 12 months we have worked on a number of significant transactions which we expect to come to market in the next 12 months.

Our success in extending our reach beyond our traditional markets continues to be the fastest growing part of our business and in the last 12 months our share of income from outside our traditional business stands at 47%.

Creating growth beyond our traditional core markets has given us an acute awareness for the importance of building depth in our brand that more appropriately reflects its key attributes. We are increasingly focused on this aspect of the business and see this as an important element of our growth strategy.

Distribution has been an area of focus for us for some time. In the last 18 to 24 months we have made changes to our distribution strategy and the results of this work have started to bear fruit this year. Logical alliances continue to be an important area of strategic focus and we have taken some important steps in this area which have the potential to deliver good results in the medium term.

Our work with government continues and over the last 12 months we have identified a number of growth opportunities both here in Australia and overseas. We are pursuing these and believe we can add significant value in our areas of interest.

Our Sydney based software manufacturing capability continues to be a key element of our current and future success. The Board is ever vigilant of the need to continue to evolve the capability of the organisation in this area. In the last 12 months we have continued to invest in future proofing our capability by simplifying our offering. Our road map investments are critical to the role we can play in payments which is increasingly creating opportunities for organisations like Indue.

The Board has recognised that growth and diversification into new markets, while reducing our concentration risk and improving our resilience, can pose other challenges including heightened operational and reputational risks. To address these risks the Board continues to strengthen our risk management capability. Over the last twelve months we continued to give significant focus to IT security and governance.

Our diversification strategy continues to be a rich source of growth which makes our business more resilient.

Board and management

The business at Indue continues to evolve and its success continues to challenge us. I am very pleased both with the quality of the Board and the capacity of my fellow Directors to respond to these challenges. I would like to thank all of them for their contribution to the group over the past year. I appreciate their professionalism, expertise and commitment, both around the Board table and in the extensive committee work.

The Board drives the strategy of the company but is very reliant on the management team to put our strategy into effect. At Indue, we benefit enormously from the strong leadership of Chief Executive Officer, Manuel Garcia and his capable senior management team. We thank them and all Indue Group staff for their commitment to the company and for being a pleasure to work with. Indue's strength and continued success comes very much from its high quality people.

Looking ahead

We sincerely appreciate the continued support and encouragement of our shareholders and greatly value our expanding customer group. While it is unlikely that business conditions will be any easier in the year ahead, we are planning for another year of solid revenue growth and earnings. We are confident we will continue to provide industry-leading service to our shareholders and customers.

We are also excited about the new opportunities before Indue as we continue to diversify our income base and exploit innovation in the payments industry, both in Australia and overseas.

R D Petie
Chairman

Chief Executive Officer's report

Operating environment

Despite challenging business conditions, this has been a good year for Indue where we have continued to build upon the foundations that were laid in previous years.

Distribution has been an area where we have made changes over the last 18 to 24 months and pleasingly these changes have shown promising signs of future success.

Business performance

Indue returned a consolidated net profit before tax result of \$4.5 million for the 2013/14 financial year, this includes an \$186,000 gain from the sale of our small fleet of ATMs.

Our transactional payment products which account for 23% of our net revenue recorded a solid performance for the year. Our overall transactional volumes continued to grow with Direct Entry up 8.5% and Cards up 12.9%. Chequing volumes continue to decline broadly in line with the general market, recording a fall of 12.2%. We see this trend continuing and reflects both the maturity of the product and the alternatives available to consumers.

ATM acquiring recorded a good result for the year with the number of ATMs in the last 12 months connected to our Network growing by more than 35% to 1,845 devices. Acquiring volumes over the period have grown by 32%. Our innovative muniwire product continues to grow with the number of devices on issue increasing by more than 81% over the last 12 months to 1,363. This year we have introduced a new product which aims to help our deployers grow their ATM networks. The take up of this product has exceeded our expectations and delivered results greater than were anticipated.

Our gift and prepaid card business continues to focus on acquiring new business with programs under management growing over the year by 12.6%. Transactional growth over the last 12 months has increased by 7.9% following continued strong growth in the transactional activity of our government payment products. We have developed a solid understanding of the payment needs of government and are very pleased that the products we have built are being acknowledged overseas. We believe we are well placed to explore opportunities in this field both here in Australia and overseas.

Our debt product continues to be acquisition focused and over the year the number of customers using this service has increased by 12.9%. Transactional scale over the year has grown by 10.1%.

Demand for our Cards Management System continues and we are currently midway through a new implementation as well as working on a number of other opportunities that are currently under consideration.

Securitisation remains difficult. Despite this, demand while slow remains. Our existing Trinity receivables stand at \$96 million at 30 June 2014 and while income has improved over the year, we remain cautious about placing too strong a reliance on this income stream.

Over the year Orion recorded a strong result with transactional volume growing by 10.2%. This service remains a critical element of our clients' defensive strategy against transactional fraud. Over the last 12 months Orion continued to perform well against its peers with very strong benefits flowing through to our customers.

Our revenue lines have performed well over the year. While this is pleasing, we must continue to be disciplined in managing costs. This year our cost to net revenue ratio was 83.5% (last year 85.5%).

Indue returned a consolidated net profit before tax result of \$4.5 million for the 2013/14 financial year.

Overall the parent entity returned a solid result recording a post tax return on capital of 12.5%. This is a solid result made possible because of the carefully laid plans which enable Indue to successfully grow and diversify its earnings base.

Outlook

We anticipate business conditions will again be challenging over the next 12 months. Despite this we are planning for another strong year.

Harnessing the opportunities is heavily reliant on our Sydney based software manufacturing capability who is responsible for bringing to market many of our innovative payment solutions. Recognising this we continue to build capability and skill in this team.

Our current diversification ratio stands at 47% of our income coming from outside our traditional heritage markets. This is an important achievement and one that enables Indue to lower its overall business risk.

Customer focus

We remain committed to our mutual heritage. We understand our members require us to deliver low cost sustainable services which will realise value as well as give them competitive sustainability.

We value our relationship with our various customer groups and remain committed to delivering quality products and services that represent real value for our customers.

In closing, we are successful because of the quality people who make up the Indue team. It is because of their dedication and commitment to serving our customers that we have the confidence to pursue opportunities in the future. I would like to take this opportunity to thank them all for what they do at Indue, both in Brisbane and Sydney, their loyalty and for their support in delivering a very solid result for the year.

M Garcia
Chief Executive Officer

Corporate Governance report

Overview

The Board is committed to sound and prudent standards of corporate governance for Indue and the Corporate Governance Committee is responsible for advising the Board and monitoring Indue's compliance with these standards. The Board maintains a statement of corporate governance principles, which defines the framework under which the Group is directed. The implementation of this disciplined governance structure ensures appropriate development, prioritisation and delivery of business strategies, as well as consistent and informed decision making to conduct the Group's activities and achieve its objectives. In addition the Committee continues to ensure that Indue complies with APRA's Corporate Governance Prudential Standards. The Board of Directors of Indue is accountable to the Company to ensure the safety of shareholder funds and that the Group operates in a sustainable and responsible way.

The Board aims to achieve these objectives through:

- improving the performance of Indue through the formulation, adoption and monitoring of corporate strategies, budgets, plans, policies and performance;
- setting strategic direction, targets and monitoring the performance of Management and of itself;
- monitoring the conduct of the Group and senior management;
- ensuring the annual review of succession planning;
- identifying and monitoring the management of the principal risks and the financial performance of Indue; and
- putting appropriate procedures in place to satisfy its corporate and legal responsibilities whilst conducting its business in compliance with all laws and in an honest, open and ethical manner.

Subject to certain reservations, the Board has delegated responsibility for the management of the day-to-day activities of Indue to its Chief Executive Officer.

Board meetings

The number of Board meetings and each Director's attendance at those meetings are set out in the report of the Directors. Directors are expected to prepare adequately for, attend and participate at Board meetings and meetings of committees. The Board meets principally at the Head Office in Brisbane.

New Directors, induction and continuing education

The Board Nominations Committee oversees the appointment of new Directors to the Board. To ensure that the Board has the necessary and desirable competencies, when considering any recommended appointments to the Board, this Committee considers the mix of skills, experience, diversity and other qualities of the existing Directors and assesses the skills required to discharge competently the Board's duties having regard to the Group's performance.

Management, working with the Board, provides an orientation program for new Directors. The program includes discussions with executives and management, and where requested, the external auditor, and reading material.

These cover the Group's strategic plans, its significant financial, accounting and risk management issues, compliance programs, management structure, internal and external audit programs, and Directors rights, duties and responsibilities. Management periodically conducts additional information sessions for Directors about the Group, and the factors impacting, or likely to impact, on its businesses. These assist the Directors to gain a broader understanding of the Group. Directors are also encouraged to keep up to date on topical issues.

Performance evaluation

The Board assesses its effectiveness regularly through an evaluation process, which includes assessment of:

- the appropriateness and relevance of the meeting schedule and agenda;
- the appropriateness, relevance, content and standard of Board material;
- the identification and appropriate management of risks faced by the Group;
- the range and standard of skills available at Board level;
- the collective and individual performance of Directors, and the scope of Directors contributions; and
- the performance of its Chairman.

For the reporting period, the Board undertook this evaluation process by conducting an internal self-assessment process.

In addition, the Board assesses annually the performance of the Chief Executive Officer and Executive Management against agreed objectives.

Remuneration of Directors

The constitution of the Group provides for two Groups of Directors, both elected in accordance with the constitution. Group One Directors, referred to as 'Industry Directors', must be officers, employees or associates of a member credit union. Group Two Directors, referred to as 'Independent Directors' must not be officers, employees or associates of a member credit union. Industry Directors are not remunerated by the Group. Independent Directors are remunerated by the Group, with shareholders determining the maximum annual aggregate amount of remuneration that may be provided to them at the Annual General Meeting. From this amount individual Directors are remunerated based on a policy of compensation towards the middle quartile of the general market, which is appropriate to the size and complexity of the Group. The Remuneration Committee receives advice from independent experts on appropriate levels of Director remuneration and guides the Board in this regard. The remuneration of key personnel is disclosed in note 29.

APS 330 disclosures for Remuneration are available in the Public Reports section of the Indue Website.

Corporate Governance report continued

Performance and remuneration of senior executives

The Group's performance management framework covers all senior executives of the Group, and entails the setting of Key Result Areas (including both financial and non-financial measures). Performance discussions are conducted bi-annually between each senior executive and their manager, with a formal end of year review which includes comparing and calibrating each senior executive to the performance of peers. For the reporting period, this performance assessment process was conducted in accordance with the agreed framework. The Board, on advice from the Remuneration Committee, sets the remuneration and performance objectives of the Chief Executive Officer, Senior Executive Management and Specially Designated Positions. Remuneration is reviewed within a Board-established framework, which includes base remuneration, the short-term performance incentive program and, for key executives, a long-term retention program. The Remuneration Committee is assisted by independent experts providing advice and benchmarking data.

Access to management

Board members have complete and open access to management. The Group Company Secretary provides advice and support to the Board, and the General Manager Risk Management is responsible for the Group's day-to-day governance framework. Access to Independent Professional Advice guidelines entitle each Director to seek independent professional advice at the Group's expense, with the prior approval of the Chairman. The Board can conduct or direct any investigation to fulfil its responsibilities and can retain, at the Group's expense, any legal, accounting or other services, it considers necessary to perform its duties.

APS 330 disclosures for Capital Adequacy are available in the Public Reports section of the Indue Website.

Risk Management and Internal Audit

The Board is responsible for reviewing and approving the overall risk management strategy, including determining the Group's appetite for risk. The CEO and Senior Executive Team have the day to day responsibility of implementing Indue's risk management strategy and frameworks and for identifying and managing risk.

On at least an annual basis, Indue's risk management framework is formally reviewed and management provide attestations to the Board that confirms that all key risks facing Indue have been identified; that management has established systems to monitor and manage those risks and the risk management frameworks are operating effectively and are adequate having regard to the risks they are designed to control. This review process was completed for the reporting period.

The Group has an independent internal audit function that reports to the Audit Committee. The internal audit function is responsible for evaluating, testing and reporting on the adequacy and effectiveness of the Group's internal controls. To ensure independence, the Group's Internal Audit Manager has a direct reporting line to the Chairman of the Audit Committee.

Board Committees

To assist the Board in fulfilling its responsibilities, the Board has established a number of Committees. Each Committee has its own charter, which sets out its responsibilities. The Board had the following Committees during the financial year:

- Audit Committee;
- Risk Committee;
- Corporate Governance Committee;
- Capital Management Committee;
- Remuneration Committee;
- Nominations Committee; and
- Information Steering Committee.

Robert D Petie	11	11	8	8
Peter R Townsend	11	9	6	6

* Hon L J Anthony retired as a Director on 30.10.13.

All Directors requested and were granted leave for meetings they were unable to attend.

2. Principal activities

The principal activities of the consolidated entity during the year were the provision of processing and settlement services in relation to financial access products including:

- plastic cards (proprietary debit, scheme debit, scheme credit, gold and business credit cards, gift cards and prepaid cards);
- transactional business services (chequing, corporate banking, direct entry, BPAY™ Biller and Payer);
- recurring payments (via credit card or direct entry); and
- automatic teller machines.

Additional activities of the consolidated entity include the provision of securitisation services and computer bureau facilities principally for hosting banking software, the supply of software applications (principally banking software) and related professional services, lease and property management services, fraud and anti-money laundering services, corporate credit cards, co-branded retail deposit accounts and loyalty programs.

The consolidated entity did not commence or cease offering any services during the year.

3. Dividends

Dividends paid

Dividends paid to members during the financial year were as follows:

	2013/14 \$'000	2012/13 \$'000
Final ordinary dividend for the year ended 30 June 2013 of 6 dollars (prior year: 6 dollars) per fully paid share (A and B Class) paid on 31 October 2013 (prior year: 31 October 2012).	464	464
Interim ordinary dividend for the year ended 30 June 2014 of 6 dollars (prior year: 6 dollars) per fully paid share (A and B Class) paid on 30 April 2014 (prior year: 30 April 2013).	464	464
	928	928

Dividends provided for

On 30 June 2014 the Directors recommended the payment of a final ordinary dividend of \$464,310 (6 dollars per fully paid A and B Class share) to be paid on 31 October 2014 out of retained profits at 30 June 2014.

4. Review of operations

A consolidated operating profit after tax of \$3,476,229 (2012/13: \$4,564,939) was achieved this year, with the parent entity returning an operating profit after tax of \$2,763,070 (2012/13: \$4,184,241).

A full review of operations is contained in the Chairman's report and the CEO's report.

5. Significant changes in the state of affairs

No significant changes occurred in the state of affairs of the Group during the year not otherwise disclosed in this report, or the financial report.

6. Events subsequent to balance date

The Directors are not aware of any matter or circumstance not otherwise dealt with in the report that has significantly, or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years, since the end of the financial year.

Directors' report continued

7. Likely developments

Information on likely developments in the operations of the Group and the expected results of operations have not been included in this annual financial report because the Directors believe it would be likely to result in unreasonable prejudice to the Group.

8. Directors' benefits

No Director of Indue Ltd has, since the end of the previous financial year, received or become entitled to receive a benefit (other than a benefit included in the total amount of emoluments received or due and receivable by Directors shown in the accounts) by reason of a contract made by the Company, or a related body corporate with the Director or with a firm of which the Director is a member, or with a Company in which the Director has a substantial financial interest.

9. Insurance of officers

During the financial year, the Group paid a premium in respect of a contract insuring the Directors, Secretaries and specified employees of the Group. In accordance with normal commercial practice, disclosure of the total amount of the premium paid, and the terms of the policy, are prohibited from being disclosed by a confidentiality clause in the contract of insurance.

10. Rounding of amounts

The Group is of a kind referred to in Class Order 98/0100, issued by the Australian Securities and Investments Commission on 10 July 1998, relating to the 'rounding off' of amounts in the Directors' report. Amounts in the Directors' report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, to the nearest dollar.

11. Auditors' Independence Declaration

A copy of the auditors' independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 21.

12. Non-audit services

The Group may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the company and/or the Group are important.

Details of the amounts paid or payable to the auditor (KPMG) for audit and non-audit services provided during the year are set out below.

The Board of Directors has considered the position and, in accordance with the advice received from the Audit Committee, is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that the provision of non-audit services by the auditor, as set out below, did not compromise the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed by the Audit Committee to ensure they do not impact the impartiality and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in The Code of Ethics for Professional Accountants APES 110, including reviewing or auditing the auditor's own work, acting in a management or a decision making capacity for the Group, acting as advocate for the Group or jointly sharing economic risk and rewards.

During the year the following fees were paid or payable for services provided by the auditor of the parent entity and its related practices.

Lead auditor's independence declaration

Under section 307c of the Corporations Act 2001

To: the Directors of Indue Ltd

I declare that, to the best of my knowledge and belief, in relation to the audit for the financial year ended 30 June 2014 there have been:

- a) no contraventions of the auditor independence requirements as set out in the Corporations Act 2001 in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

The above Statements of Cash Flows should be read in conjunction with the accompanying notes.

Notes to the financial statements

For the year ended 30 June 2014

1. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, except for the changes in accounting policies as explained in Note 1(a). The financial statements include separate financial statements for Indue Ltd (Indue) as an individual entity and the consolidated entity consisting of Indue Ltd and its subsidiaries (the Group). Indue is a for-profit entity and primarily operates in the payment services industry offering white labeled and transactional products to commercial business, government departments and financial institutions.

a) Basis of preparation

Statement of compliance

The consolidated financial statements of the Group and the separate financial statements of Indue Ltd are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The financial statements comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

In addition the Group has elected to apply the relief in Class Order 10/654 which allows the Group to continue to include parent entity financial statements in the financial report.

As part of this relief the Group is not required to present the summary parent entity information required by regulation 2M.3.01 of the Corporations Act 2001.

The consolidated financial statements were authorised for issue by the Board of Directors on 29 August 2014.

Historical cost convention

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets and certain classes of property and plant and equipment.

Critical accounting estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 1(u). Estimates and underlying assumptions are reviewed on an ongoing basis

Changes in accounting policies

From 1 July 2013 the Group applied the following new standards and amendments to standards and voluntary changes to accounting policies:

- **AASB 13 Fair Value Measurement**
This standard establishes a single framework for measuring fair value and making disclosures about fair value measurements when such measurements are required by other Australian Accounting Standards including AASB 9 *Financial Instruments*. Notwithstanding the above, the change has no significant impact on the measurement of the Group's assets and liabilities.
- **AASB 10 Consolidated Financial Statements**
This standard introduces a new control model to determine which investees should be consolidated and focuses on whether the Group has power over an investee, exposure or rights to returns from its involvement with the investee and ability to use its power to affect those returns. This amendment has not impacted the consolidation of the Group. Refer Note 1(b).
- **AASB 12 Disclosure of Interests in Other Entities**
As a result of AASB 12, the Group has expanded disclosures about its interests in subsidiaries and involvement with unconsolidated structured entities (see Note 27).
- **AASB 19 Employee Benefits**
Amendments to this standard changes the definition of short-term and other long-term employee benefits and some disclosure requirements. These amendments have no significant impact on the Group.

Notes to the financial statements

For the year ended 30 June 2014

- **AASB 120 Accounting for Government Grants and disclosure of Government Assistance**

The Group has adopted AASB 120 *Accounting for Government Grants and disclosure of Government Assistance* in accounting for the non-refundable Research and Development (R&D) tax incentive. The R&D tax incentive is an Australian Government targeted entitlement program that provides eligible entities with a tax offset for expenditure, or the decline in value of depreciating assets used in, eligible R&D activities. This is a voluntary change in accounting treatment as the benefit is regarded as a grant to offset the growing focus on the investment in R&D in the Group. This change in accounting treatment has been applied retrospectively in the statement of profit or loss and other comprehensive income, increasing Revenue from continuing operations and Income tax expense by \$399,128 (2013: \$245,341).

Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Indue's functional and presentation currency.

The Group is of a kind referred to in ASIC Class Order 98/100 dated 10 July 1998 and in accordance with that Class Order, all financial information presented in Australian dollars has been rounded to the nearest thousand unless otherwise stated.

b) Principles of consolidation

Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Indue as at 30 June 2014 and the results of all subsidiaries for the year then ended. Indue and its subsidiaries are referred to in these financial statements as the consolidated entity or the Group.

As a result of AASB 10 *Consolidated Financial Statements*, the Group assessed whether Indue was required to consolidate Trinity Mortgage Origination Trust No. 1 (The Trust) in accordance with the new definition of control. The Group concluded that Indue was not deemed to control The Trust and therefore was not required to consolidate for accounting purposes.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group (refer to note 1(v)).

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Investments in subsidiaries are accounted for at cost in the individual financial statements of Indue.

c) Investments and other financial assets

Classification

The Group classifies its financial assets into three categories: loans and receivables, held-to-maturity investments and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and re-evaluates this designation at the end of each reporting period.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are included in receivables in the Statements of Financial Position. Refer to note 11.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity. Refer to note 9.

Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the Statements of Profit or Loss and Other Comprehensive Income. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in equity are included in the Statements of Profit or Loss and Other Comprehensive Income as gains and losses from investment securities.

Subsequent measurement

Loans and receivables and held-to-maturity investments are carried at amortised cost using the effective interest method.

Available-for-sale financial assets are subsequently carried at fair value. Changes in the fair value of monetary securities denominated in a foreign currency and classified as available-for-sale are analysed between translation differences resulting from changes in amortised cost of the security and other changes in the carrying amount of the security. The translation differences related to changes in the amortised cost and other changes in carrying amount are recognised in other comprehensive income. Changes in the fair value of other monetary and non-monetary securities classified as available-for-sale are recognised in other comprehensive income.

Impairment

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or Group of financial assets is impaired. Impairment losses recognised in the Statements of Profit or Loss and Other Comprehensive Income on equity instruments classified as available-for-sale are not reversed through the profit or loss.

d) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values.

The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments. Refer to note 2(a).

e) Property, plant and equipment

Land and buildings are shown at fair value, based on periodic, but at least triennial, valuations by external independent valuers, less subsequent depreciation for buildings. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. All other property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the profit or loss during the financial period in which they are incurred.

The fair value of land and buildings must be estimated for disclosure purposes. The Group discloses the fair value measurements by level using the following fair value measurement hierarchy:

Notes to the financial statements continued

For the year ended 30 June 2014

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

Increases in the carrying amounts arising on revaluation of land and buildings are recognised, net of tax, in other comprehensive income and accumulated in reserves in equity.

To the extent that the increase reverses a decrease previously recognised in profit or loss, the increase is first recognised in profit and loss. Decreases that reverse previous increases of the same asset are first recognised in other comprehensive income to the extent of the remaining surplus attributable to the asset. All other decreases are charged to the profit and loss. Each year, the difference between depreciation based on the revalued carrying amount of the asset charged to profit or loss and depreciation based on the asset's original cost, net of tax, is reclassified from the property, plant and equipment revaluation surplus to retained earnings.

Land is not depreciated. Depreciation on other assets is calculated using the straight line basis, (with the exception of motor vehicles which are depreciated using the diminishing value method) to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives, as follows:

• Buildings	40 years
• Vehicles	3-6 years
• IT Hardware and Software	2.5-5 years
• Furniture, fittings and equipment	10-15 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the profit or loss. When revalued assets are sold, it is Group policy to transfer the amounts included in other reserves in respect of those assets to retained earnings.

f) Receivables

Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Trade receivables are generally due for settlement within 14 days or in some cases 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. An allowance account (provision for impairment of trade receivables) is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables.

The amount of the impairment loss is recognised in the profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the profit or loss.

Receivables due from other financial institutions

Receivables from other financial institutions are amounts receivable from counterparties for the purposes of funding daily settlement. Refer to note 7.

g) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Tax consolidation legislation

Indue Ltd and its wholly-owned Australian controlled entities implemented the tax consolidation legislation.

The head entity, Indue Ltd, and the controlled entities in the tax consolidated Group account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated Group continues to be a stand alone taxpayer in its own right.

In addition to its own current and deferred tax amounts, Indue Ltd also recognised the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated Group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the Group. Details about the tax funding agreement are disclosed in note 4(d).

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly owned tax consolidated entities.

Non-refundable Research and Development tax incentive

Since the initial application of the R&D tax incentive program during the 2012 financial year, the Group have applied AASB 112 with respect to its accounting treatment. Accordingly, the 40% non-refundable incentive was offset against the income tax expense in the profit or loss. It is management's current view that the incentive is better accounted for as a government grant in accordance with AASB 120 predominantly due to the increased level of R&D activity over the past two years which is aimed at delivering improved value to shareholders. The additional incentive from the government reduces the net cost of the investment which is achieved by accounting for it as income rather than below the EBIT line in income tax expense.

Notes to the financial statements continued

For the year ended 30 June 2014

Non-refundable R&D tax offsets are first used to reduce any income tax payable and any excess is carried forward to offset future tax payable (i.e. non refundable). The government grant is only the additional 10% base R&D tax incentive, rather than the 40% tax offset. That is, the substance of the non-refundable tax incentive is the equivalent of an additional reduction in tax payable over the normal 30% that would have been applied if the expenditure had been otherwise claimed as a deduction. As a result, the additional 10% base R&D tax incentive has been retrospectively applied to the Statements of profit or loss and other comprehensive income, including any income tax affect, in accordance with AASB 108 (note 4).

h) Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases (note 31). Payments made under operating leases (net of any incentives received from the lessor) are charged to the profit or loss on a straight-line basis over the period of the lease.

i) Impairment of assets

Goodwill has an indefinite useful life and is not subject to amortisation. It is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired. Refer note 10 for information on the determination of recoverable amount in relation to goodwill.

Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or Groups of assets (cash generating units).

j) Employee benefits

Wages and salaries and annual leave

Short term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay these incentives as a result of past service provided by the employee and the obligation can be estimated reliably.

Long service leave

A liability for long service leave is recognised in the provision for employee benefits and is measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using interest rates on national government guaranteed securities with terms to maturity that match, as closely as possible, the estimated future cash outflows.

Short term and long term incentive payments

A liability for short term and long term incentive payments are recognised in the provision for employee benefits and are measured at the amounts expected to be paid at the time when the employee becomes entitled to the payment.

k) Inventories

All inventories are stated at the lower of cost and net realisable value.

l) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and includes interest income on short term monetary investments and proceeds from service fees. Revenue is recognised for the major business activities as follows:

Interest income

Interest income is recognised on a time proportion basis using the effective interest method. The calculation of the effective interest rate includes all fixed costs and fees and payments paid or received that are an integral part of the effective interest rate.

Fee income

Fee income (excluding amounts that are integral to the effective interest rate) is recognised in the period in which the services are rendered.

Contract revenue includes income generated for the development and/or implementation of a payment software systems under specifically negotiated contracts with customers.

The Group recognises contract revenue based on an assessment of the work performed against the individual component of the contracted statement of works at the reporting date.

Sales income

Sales income is recognised when an invoice has been raised for the provision of a product and the significant risks and rewards of ownership have been transferred to the buyer, and the collectability of the related receivable is probable.

Rental income

Rental income from operating leases is recognised on a straight line basis over the lease term.

Government Grants

The Group recognises Government Grant income related to Research and Development tax incentives in profit or loss as other income. The amount of other income from government grants is the additional 10% base R&D tax incentive rather than the 40% tax offset received.

m) Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash held in ATMs and deposits held at call with banks, net of outstanding bank overdrafts.

n) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

o) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

p) Deposits and other financial liabilities

Deposits and other financial liabilities are initially recognised at fair value, net of transaction costs incurred. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit or Loss and Other Comprehensive Income using the effective interest method.

Deposits

Deposits are funds lodged by customers for the purposes of funding daily transaction settlement and as security deposits for providing cash security against settlement risk directly attributable to settlement activity undertaken by the Group on their behalf. Refer to note 18.

Interest is brought to account on an accruals basis, in arrears.

Payables to other financial institutions

Payables due to financial institutions are amounts due to counterparties for the purposes of funding daily settlement for the various payment markets in which the Group participates. Refer to note 16.

Interest is brought to account on an accruals basis, in arrears.

Notes to the financial statements continued

For the year ended 30 June 2014

q) Provisions

Provisions are recognised when the Group has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated.

r) Contributed equity

Ordinary shares are classified as share capital.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

s) New accounting standards and interpretations

The following standards, amendments to standards and interpretations have been identified as those which may impact the entity in the period of initial application. They are available for early adoption at 30 June 2014, but have not been applied preparing this financial report:

AASB 9 Financial Instruments (2010), AASB 9 Financial Instruments (2009)

AASB 9 (2009) introduces new requirements for the classification and measurement of financial assets. Under AASB 9 (2009), financial assets are classified and measured based on the business model in which they are held and the characteristics of their contractual cash flows. AASB 9 (2010) has added requirements for the classification and measurement of financial liabilities that are generally consistent with the equivalent requirements in AASB 139 in respect of the fair value option; and certain derivatives linked to unquoted equity investments. AASB 9 (2009) and (2010) will become mandatory for the Group's 30 June 2018 financial statements with retrospective application.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 contains a single model that applies to contracts with customers and two approaches to recognising revenue; at a point in time or over time. The model features a contract-based five step analysis of transactions to determine whether, how much and when revenue is recognised. IFRS 15 will become mandatory for the Group's 30 June 2017 financial statements with either retrospective application or as of the application date using the 'cumulative effect approach'.

AASB 1053 Application of Tiers of Australian Accounting Standards

Amendments to AASB 1053 apply on or after 1 July 2014 and clarify that AASB 1053 only relates to general purpose financial statements, clarifies various options for transition to and between tiers and specifies certain disclosure requirements when an entity resumes the application of Tier 2 reporting requirements.

AASB 2012-13 Amendments to Australian Accounting Standards – offsetting Financial Assets and Financial Liabilities

Amendments to AASB 132 clarify when an entity has the legally enforceable right to set-off financial assets and financial liabilities, permitting entities to present balances net on the balance sheet. These amendments apply retrospectively from 1 July 2014.

t) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. No fees have been paid on the establishment of loan facilities.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

u) Critical accounting estimates and judgments

The Group makes estimates and assumptions concerning the future. The estimates and assumptions that may have a significant risk of causing material adjustments are in respect of goodwill or intangibles. For the details of these assumptions, refer to Note 10 in respect of Intangible Assets and Note 12 for Property, Plant and Equipment.

v) Intangible assets

Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary at the date of acquisition. Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised. Instead, goodwill is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

IT development and software

Costs incurred in developing products or systems and costs incurred in acquiring software and licenses that will contribute to future period financial benefits through revenue generation and/or cost reduction are capitalised to software and systems. Costs capitalised include internal directly attributable costs, external direct costs of materials and service. Amortisation is calculated on a straight-line basis over periods generally between 2.5 and 5 years.

IT development costs include only those costs directly attributable to the program build and are recognised following completion of technical feasibility and where the Group has an intention and ability to use the asset.

Research and development

Research expenditure is recognised as an expense as incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as intangible assets when it is probable that the project will, after considering its commercial and technical feasibility, be completed and generate future economic benefits and its costs can be measured reliably. The expenditure capitalised comprises all directly attributable costs, including costs of materials and services. Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use on a straight-line basis over its useful life, which vary from 2.5 to 3 years.

Notes to the financial statements continued

For the year ended 30 June 2014

w) Foreign currency translation

Foreign currency transactions are translated into Australian Dollars using the exchange rates prevailing at the dates of the transactions.

Translation differences on non-monetary financial assets such as equities classified as available-for-sale financial assets are included in the fair value reserve in equity.

x) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the Australian Taxation Office (ATO). In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the Statement of Financial Position.

Cash flows are presented on a gross basis. The GST component of cash flows arising from investing or financing activities which are recoverable from, or payable to the ATO, are presented as operating cash flows.

2. Financial risk management

The Group's activities expose it to a variety of financial risks: market risk, liquidity risk, credit risk (principally settlement risk) and fair value estimation. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. Risk management is carried out in accordance with policies approved by the Board of Directors. The Group uses different methods to measure different types of risk to which it is exposed. The Board provides written principles for overall risk management, as well as written policies covering specific areas including liquidity management and large exposures.

a) Accounting classifications and fair values

The Group discloses the fair value measurements by level using the following fair value measurement hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The Group has not disclosed the fair values for financial instruments including cash, trade receivables/payables, amounts due from/to other financial institutions, loans and advances and investments/term deposits as they are assumed to approximate their fair values due to their short-term nature.

There were no changes in the Group's approach to Financial Risk Management during the year.

The Group and the parent entity hold the following financial instruments:

	Consolidated		Parent Entity	
	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000
Financial Assets				
Cash and cash equivalents	107,340	119,341	107,340	119,341
Receivables due from other financial institutions	8,919	2,905	8,919	2,905
Loans and advances	460	332	460	332
Trade or other receivables	5,512	3,239	4,197	2,715

Other financial assets	–	–	8,401	8,401
	320,010	318,819	327,096	326,696
Financial Liabilities				
Deposits	273,730	273,769	277,573	277,027
Borrowings	10	5	10	5
Payables due to other financial institutions	20,007	22,255	20,007	22,255
Creditors and other liabilities	4,687	2,640	5,422	3,821
	298,434	298,669	303,012	303,108

b) Market risk

Foreign exchange risk

Group policy restricts investments and transactions in foreign currencies to avoid exposure to exchange rate movements.

Interest rate risk

The consolidated entity's exposure to interest rate risk and the effective weighted average interest rate by maturity periods is set out in the following table. The Group manages its interest rate risk by matching the investment portfolio to the terms of deposits held. Investment mismatches greater than 30 days are subject to Chief Financial Officer approval.

Exposures arise predominantly from assets bearing variable interest rates as the Group intends to hold fixed rate assets to maturity.

Sensitivity Analysis

The table below describes the impact to the Statements of Profit or Loss and Other Comprehensive Income if interest rates had changed by +/- 100 basis points from the year-end rates with all other variables held constant.

Variable	Movement in Variable	Group 2014 \$	Group 2013 \$	Parent 2014 \$	Parent 2013 \$
Interest Income	+100 bp	3,186,070	2,981,785	3,186,070	2,981,785
	-100 bp	(3,186,070)	(2,981,785)	(3,186,070)	(2,981,785)
Interest Expense	+100 bp	2,720,549	2,601,712	2,720,549	2,601,712
	-100 bp	(2,720,549)	(2,601,712)	(2,720,549)	(2,601,712)
Net Interest Income	+100 bp	465,521	384,870	465,521	384,837
	-100 bp	(465,521)	(384,870)	(465,521)	(384,837)

This sensitivity analysis has been prepared using the underlying average monthly balance of financial assets and liabilities and modelling the impact of an interest rate movement on the resultant interest income and expense. This approach has been consistently applied each period.

c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close-out market positions. The Group manages liquidity risk in accordance with the Liquidity and Large Exposure Policies set by the Board and agreed with the Australian Prudential Regulation Authority (APRA). The Group undertakes daily monitoring of actual cash flows and forecasts cash requirements daily. The Group substantially matches the maturity profiles of financial assets and liabilities, and aim to ensure that a ready supply of liquidity is available as financial liabilities fall due. Board Policy requires that funds are only invested in high quality liquid assets with Authorised Deposit Taking Institutions (ADIs) with a Standard and Poor's rating of A-2/BBB+ or higher.

To further mitigate liquidity risk, the Group's large exposure policy restricts the total amount of its liquid assets that can be held with a single counterparty. These limits vary depending upon the creditworthiness of the counterparty but are subject to a maximum of 35% to any one counterparty, with the exception of the Reserve Bank of Australia (100% limit) and a specially approved limit to Westpac Banking Corporation (WBC). The Group has an extensive settlement agency relationship with WBC and therefore is required to hold a substantial proportion of its liquidity with WBC to settle the Group's daily cash settlement obligations and to satisfy WBC's requirement for cash security. A limit is imposed by Group policy which caps the exposure to WBC at an aggregate dollar limit, which is set in consultation with the Australian Prudential Regulation Authority (APRA).

Settlement risk

As a provider of settlement services, the Group is exposed to liquidity risk associated with settlement. Settlement risk is the risk that clients will be unable to honour their settlement obligations arising from daily transactional activity, exposing the Group to potentially having insufficient liquidity to settle with the market on behalf of the clients of the Group. The Group has established robust criteria having regard to the potential risks associated with volume and volatility of settlement transactions undertaken. Daily settlement positions are modeled at a client level to ensure each client will have sufficient liquidity in their settlement account to meet their next day settlement obligations. In addition, cash security deposits are held by Indue from each client to act as security against any unforeseen unfunded settlement positions and action plans are in place to aim to ensure that timely action is taken to cease all settlement activity on behalf of a client in the event that client is unable to continue to fund its own settlement obligations.

d) Credit risk

Credit risk is managed on a Group basis. Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, as well as credit exposures to wholesale and retail customers, including outstanding receivables and committed transactions. In particular, the Group is exposed to settlement risk, the risk of the Group completing financial settlement with the market on behalf of a client, where the client is unable to fund these settlement obligations back to the Group.

For placements with banks and financial institutions, only independently rated parties with a minimum rating of 'A-2/BBB+' are accepted.

To mitigate credit risk associated with the specific function of settlement, the Board has set specific security policies that require minimum levels of security to be held, matched to the credit standing of the customer based on internal credit risk review and the relevant settlement stream they participate in. Security is held in the form of cash and in some cases a mix of cash and a fixed and floating equitable charge over the assets of the client.

Compliance with credit limits by customers is regularly monitored by Group treasury and Group risk management undertakes stress testing of the settlement risk exposure on a monthly basis and reports its findings to the Board on a monthly basis.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets as summarised on page 36.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings where available or to historical information about counterparty default rates.

	21.61%	1,260	19.91%	1,041

d) Tax consolidation legislation

Indue Ltd and its wholly-owned entities have implemented tax consolidation legislation. The accounting policy in relation to this legislation is set out in note 1(g).

On adoption of the tax consolidation legislation, the entities in the tax consolidated Group entered into a tax sharing agreement which, in the opinion of the Directors, limits the joint and several liability of the wholly-owned entities in the case of a default by the head entity, Indue Ltd. The entities have also entered into a tax funding agreement under which the wholly-owned entities fully compensate Indue Ltd for any current tax payable assumed and are compensated by Indue Ltd for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to Indue Ltd under the tax consolidation legislation. The funding amounts are determined by reference to the amounts recognized in the wholly-owned entities' financial statements.

The amounts receivable/payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year.

The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax installments. The funding amounts are recognized as current intercompany receivables or payables.

Franking account

Franking Credits available for subsequent years based on a tax rate of 30%.

	Consolidated		Parent Entity	
	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000
Franking Credits available for subsequent periods based on a tax rate of 30% (2013: 30%)	5,979	5,089	5,979	5,089

The above amounts represent the balance of the franking account as at the end of the financial year, adjusted for:

- franking credits that will arise from the payment of the current tax liability;
- franking debits that will arise from the payment of dividends recognized as a liability at the reporting date;
- franking credits that will arise from the receipt of dividends recognized as receivables at the reporting date; and
- franking credits that may be prevented from being distributed in subsequent financial years.

The consolidated amounts include franking credits that would be available to the parent entity if distributable profits of controlled entities were paid as dividends.

Internally generated	–	583	583
Amortisation	–	(173)	(173)
Closing net book amount	4,061	1,363	5,424

a) Goodwill

Goodwill and other intangible assets relate to the acquisition of Lynx Financial Systems Pty Ltd (Lynx). The recoverable amount of goodwill (including customer contracts and software acquired) was determined based on value-in-use calculations at acquisition date and is tested for impairment in accordance with note 1(i).

Indue and Lynx are regarded as one Cash Generating Unit (CGU) for impairment testing purposes due to the integrated nature of the two businesses.

The 'value-in-use' calculation is the valuation of the Indue Group as a whole compared to its Consolidated Group Statement of Financial Position valuation.

The assumptions used in the value-in-use calculations are set out below:

- (i) the projected future cashflows in Indue's 5 year strategic plan;
- (ii) a terminal value calculated using the cashflows forecast to be generated in year 5 with a residual growth rate of 2% (2013: 5%);
- (iii) a post tax discount rate of 10.9% (2013: 13.5%).

A recoverable value of the assets in excess of its carrying value is supported and therefore the asset was not impaired at 30 June 2014 (2013: nil).

Notes to the financial statements continued

For the year ended 30 June 2014

b) Other intangible assets

Other intangible assets is comprised of the Domino Core Banking system (acquired as part of the Lynx acquisition) and the internally generated Card Management System.

The 2013 internally generated intangibles of \$583k was comprised of \$411k relating to the Card Management System build and \$172k client contract specific work in progress. At 30 June 2014, the \$411k Card Management build was added to the 13/14 internally generated Card Management System build of \$1,527k, giving a total of \$1,938k at the end of 30 June 2014. The contract specific work of \$172k has been amortised to the Statements of Profit or Loss and other comprehensive income.

The Domino Core Banking System is being amortised over 10 years with 4 years remaining, reflecting the economic life and value added by this acquired software asset. The internally generated card management system which will be amortised over 5 years drives in excess of \$205k of Indue's current revenue, and is the core driver of Indue's future growth strategy.

A recoverable value of the assets in excess of its carrying value is supported and therefore the asset was not impaired at 30 June 2014 (2013: nil).

11. Loans and advances

	Consolidated		Parent Entity	
	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000
Loans and advances	460	332	460	332

At cost	7,087	7,302	5,150	4,980	1,937	2,321
	9,819	9,804	5,649	5,401	4,169	4,403

The Group discloses the fair value measurements by level using the following fair value measurement hierarchy:

- quoted prices (unadjusted) in active markets for identical assets (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset, either directly (as prices) or indirectly (derived from prices) (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following tables present the Group's and the parent entity's assets measured and recognised at fair value at 30 June 2014.

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Consolidated – 2014				
Assets				
Land	–	–	1,143	1,143
Buildings	–	–	1,089	1,089
Consolidated – 2013				
Assets				
Land	–	–	1,143	1,143
Buildings	–	–	1,031	1,031

The fair value of land and buildings was determined by external, independent property valuers, having appropriately recognised professional qualifications and recent experience in the location, sales evidence, leasing opportunities and category of the property being valued. Market valuation was used to revalue the assets using comparable sales. In accordance with the Board policy in relation to valuation of land and buildings in note 1(e), a valuation was undertaken by Trivett and Associates (QLD Registration Number – 1654) on 6 March 2014 which valued the 6 Moorak Street Taringa property at \$2,130,000 (7 June 2011: \$1,900,000). The difference between the valuation of \$2,130,000 and the value represented for land and buildings in the table above is attributed to the Head Office at 601 Coronation Drive Toowong leasehold property improvements which do not form part of the valuation of the freehold land and buildings. These assets are included in level 3.

The carrying value of plant and equipment are assumed to approximate their fair values due to their short-term nature.

This fair value methodology is consistent year on year.

Notes to the financial statements continued

For the year ended 30 June 2014

Reconciliations – Reconciliations of the carrying amounts of each class of property, plant and equipment at the beginning and end of the current financial year are set out below.

20. Provisions

	Consolidated		Parent Entity	
	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000
Employee entitlements				
– Current	4,069	3,068	3,362	2,531
– Non Current	179	158	129	125
Dividends	464	464	464	464
Other	67	14	67	14
	4,780	3,704	4,022	3,134

a) Dividends

Provision is made for dividends declared but not distributed at the end of the reporting period.

On 30 June 2014 the Directors declared a final ordinary dividend of \$464,310 (6 dollars per fully paid A and B Class share) to be paid on 31 October 2014 out of retained profits at 30 June 2014.

Dividends paid to members during the financial year were as follows:

	2013/14 \$'000	2012/13 \$'000
Final ordinary dividend for the year ended 30 June 2013 of 6 dollars (prior year: 6 dollars) per fully paid share (A and B Class) paid on 31 October 2013 (prior year: 31 October 2012)	464	464
Interim ordinary dividend for the year ended 30 June 2014 of 6 dollars (prior year: 6 dollars) per fully paid share (A and B Class) paid on 30 April 2014 (prior year: 30 April 2013)	464	464
	928	928

b) Employee entitlements

The current provision for employee entitlements includes accrued annual leave and long service leave. For long service leave it covers all unconditional entitlements where employees have completed the required period of service and also those where employees are entitled to pro-rata payments in certain circumstances. For these employees, the entire amount of the provision is presented as current, since the Group does not have an unconditional right to defer settlement for any of these obligations. Based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment of the current provision within the next 12 months. The non-current provision for long service leave covers all other employees where the required period of service has not yet been completed.

Movements in each class of provision during the financial year, other than employee benefits, are set out below:

Consolidated – 2014	Dividends \$'000	Other \$'000	Total \$'000
Carrying amount at start of year	464	14	478
Additional provisions recognised	928	242	1,170

	Consolidated and Parent Entity		Consolidated and Parent Entity	
	2014 Shares	2013 Shares	2014 \$'000	2013 \$'000
Share Capital				
Ordinary A Class Shares on issue	51,609	51,609	5,161	5,161
Ordinary B Class Shares on issue	25,776	25,776	2,578	2,578
	77,385	77,385	7,739	7,739

The Company's Authorised Share Capital is 77,385. All issued shares are fully paid.

The holders of ordinary A class shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. The holders of ordinary B class shares are entitled to receive dividends as declared from time to time, but do not carry the right to vote. The holders of Ordinary shares entitle the holder to participate in the proceeds on winding up of the company in proportion to the number of and amounts paid on the shares held.

Movements in ordinary share capital (consolidated and parent):

30 June 2014	Closing Balance	77,385	100	7,739

Notes to the financial statements continued

For the year ended 30 June 2014

Capital risk management

The Group's and the parent entity's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to maximise the beneficial use of available capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new capital instruments or change the composition of its investments.

The Australian Prudential Regulation Authority (APRA) sets and monitors capital requirements under APS 110 Capital Adequacy. Under the standard the Parent Entity must maintain minimum levels of Tier 1 capital and may also hold Tier 2 capital up to certain prescribed limits.

Tier 1 capital comprises the highest quality components of capital that must fully satisfy the following characteristics:

- Provide a permanent and unrestricted commitment of funds;
- Are freely available to absorb losses;
- Do not impose any unavoidable servicing charges against earnings;
- Rank behind claims of depositors and creditors in the event of a winding up.

Tier 2 capital comprises capital instruments that to varying degrees, fall short of the quality of Tier 1 capital, but exhibit some of the features of equity, and contribute to the overall strength of the Group as a going concern.

Capital in the Group is made up as follows:

	30 June 2014 (\$)	30 June 2013 (\$)
Tier 1 Capital – Group		
Paid-up ordinary shares	7,738,500	7,738,500
Reserves	931,781	1,001,920
Retained Earnings, including Current Year Earnings	20,462,289	17,914,684
Deductions from Tier 1 Capital		
Total deductions (including goodwill, and investments)	(8,060,455)	(6,161,212)
	30 June 2014 (\$)	30 June 2013 (\$)
Tier 2 Capital – Group		
Total Tier 2 Capital (net of deductions)	–	–
Total Capital	21,072,115	20,493,892

The Group managed its total Capital Adequacy Ratio to an internal minimum (Management trigger) of 14.5% (2013: 14.5%) during the year, as compared to the risk weighted assets. The Group has exceeded this minimum requirement throughout the financial year. The Group's actual Capital Adequacy Ratio at financial year ends are as follows:

	30 June 2014 (%)	30 June 2013 (%)
Capital Adequacy Ratio – Group		
Tier 1 Capital Adequacy Ratio	14.93	15.35
Total Capital Adequacy Ratio	14.93	15.35

24. Reserves

	Consolidated		Parent Entity

Revaluation – gross	–	–	–	–
Deferred tax (not 4 (c))	–	(463)	–	(463)
Balance 30 June	–	–	–	–

Nature and purpose of reserves

Asset revaluation surplus

The asset revaluation surplus is used to record increments and decrements on the revaluation of non-current assets, as described in note 1(e).

Available for sale investments revaluation surplus

Changes in the fair value and exchange differences arising on translation of investments, such as equities classified as available-for-sale financial assets, are taken to the available-for-sale investments revaluation surplus. Amounts are recognised in profit and loss when the associated assets are sold or impaired.

30. Contingent liabilities

There are no present obligations that have arisen from past events which have not been recognised, nor are there possible obligations arising by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

31. Commitments

Non-cancellable operating lease commitments: Group as lessee

The Group leases various offices under non-cancellable operating leases expiring within three to six years. The leases have varying terms, escalation clauses and renewal rights. On renewal, the terms of the leases are renegotiated.

	Consolidated		Parent Entity	
	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000
Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:				
Within one year	1,032	732	1,032	608
Later than one year but not later than five years	4,500	196	4,500	–
Later than five years	1,028	–	1,028	–
	6,560	928	6,560	608

The Group, through the operations of its subsidiary Indue Aggregation Services Pty Ltd, leases various offices which are sublet by the Group. These leases and subleases have varying terms, escalation clauses and renewal rights. The following represents the additional commitments payable by Indue as well as the sublease income expected to be received.

	Consolidated		Parent Entity	
	2014 \$'000	2013 \$'000	2014 \$'000	2013 \$'000
Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:				
Within one year	5,954	6,588	–	–
Later than one year but not later than five years	8,402	11,920	–	–
Later than five years	1,821	3,422	–	–
	16,177	21,930	–	–

Directors' declaration

In the opinion of the Directors of Indue Ltd ('the Company'):

- a) the consolidated financial statements and notes set out on pages 22 to 71, are in accordance with the Corporations Act 2001, including;
 - (i) complying with Accounting Standards and the Corporations Regulations 2001; and
 - (ii) giving a true and fair view of the Company's and Group's financial position as at 30 June 2014 and of its performance for the financial year ended on that date; and
- b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

The Directors have been given the declarations by the Chief Executive Officer and Chief Financial Officer required by section 295A of the Corporations Act 2001, for the financial year ended 30 June 2014.

The Directors draw attention to Note 1(a) to the consolidated financial statements, which includes a statement of compliance with International Financial Reporting Standards.

Signed in accordance with a resolution of the Directors:

R D Petie
Director

S R King
Director

Brisbane

Independent auditor's report to members

Independent auditor's report to the members of Indue Ltd

Report on the financial report

We have audited the accompanying financial report of Indue Ltd (the Company), which comprises the statements of financial position as at 30 June 2014, and statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows for the year ended on that date, notes 1 to 31 comprising a summary of significant accounting policies and other explanatory information and the Directors' declaration of the company and the Group comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The Directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that is free from material misstatement whether due to fraud or error. In note 1(a), the Directors also state, in accordance with Australian Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We performed the procedures to assess whether in all material respects the financial report presents fairly, in accordance with the Corporations Act 2001 and Australian Accounting Standards, a true and fair view which is consistent with our understanding of the Company's and the Group's financial position and of their performance.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Auditor's opinion

In our opinion:

- (a) the financial report of Indue Ltd is in accordance with the Corporations Act 2001 including:
 - (i) giving a true and fair view of the Company's and the Group's financial position as at 30 June 2014 and of their performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in note 1 (a).
